PROJECTS

MovieReview | <https://github.com/AdarshRanjan1/Movie-Review> | September 2023 - October 2023

- An end to end Database focused portal for creating, reading, updating and deleting(CRUD operations) movie reviews.
- It uses moviesdb API and NodeJS with MongoDB in the backend.
- Technologies used- HTML, CSS, Javascript, NodeJS, ExpressJS and MongoDB.

Personal Portfolio | <https://adarshranjan1.github.io/AdarshRanjan-Portfolio/> | August 2023 - September 2023

- A completely responsive website for both PC and mobile screens.
- Display all my personal information using a great UI.
- Built using HTML, CSS and Javascript.

Rock Paper Scissors Game | July 2023 - July 2023

- Developed a rock paper scissors game using JavaScript, HTML and CSS, which created a modern dark UI and stored user results in the local storage, reducing the chances of losing data on reload.
- It provides you an autoplay option as well.
- It also provides you with option to play with keyboard keys.

ToDo List | July 2023 - July 2023

- Developed using HTML, CSS and Javascript this helps you with adding your tasks along with the due date.
- It stores your information in the local storage which reduces the chance of losing it.
- UI provides a very simple and beautiful experience.
